Balvac Wins Prestigious RoSPA 'Presidents Award'

Balvac is delighted to receive the esteemed 'Presidents Award' in recognition of having achieved ten consecutive Gold Awards.

The President's Award is awarded to those companies who are successful in achieving a minimum of 10 consecutive annual 'Gold Awards'. This is recognition of a continuously high performance in health and safety, and in particular a consistently low Accident Frequency Rate (AFR).

Our AFR has been zero since May 2007, and the number of minor accidents has also consistently reduced year on year.

Entering the RoSPA Awards and receiving recognition for an excellent health and safety record is very positive for the business, and supports our journey to Zero Harm.

Richard Bailey
Operations Director
Balvac Ltd
